

IN THE CLAIMS

1-29. (canceled)

29. (Currently amended): A grease for use in a rolling bearing comprising a base grease and an additive, wherein the base grease comprises a base oil and a thickener, said base oil is one oil selected from among poly- α -olefin oil, mineral oil, and ether oil, said base oil having a kinematic viscosity of 33 to 100mm²/s at 40°C and the additive comprises ~~The grease according to claim 1, wherein said inorganic bismuth compounds are sodium bismuthate.~~

30. (previously presented) A grease for use in a rolling bearing comprising a base grease and an additive, wherein the base grease comprises a base oil and a thickener, said base oil is one oil selected from among poly- α -olefin oil, mineral oil, and ether oil, said base oil having a kinematic viscosity of 20 to 200mm²/s at 40°C and the additive comprises sodium bismuthate.

31. (new): The grease as defined in claim 30 where the rolling bearing is in a rolling stock.
